NETCHEMISTRY AND ELM ANNOUNCE SAFETYNET CONNECT JOINT VENTURE

-- Joint venture focused on advancing the role of technology and services to improve patient transitions and outcomes

NEWPORT BEACH, Calif., January 3, 2009 - NetChemistry, Inc. and ELM, two of California's leading healthcare technology driven companies, today announced a joint venture with a long-term goal of improving patient health.

SafetyNet Connect was founded to provide a suite of web-based solutions under a single, fully-integrated umbrella for those public/private organizations serving the underinsured and uninsured. SafetyNet Connect through its offerings, AuthMed, eCEDA, ER Connect, Clinic Connect, Community Connect eReferral and eConsult, has realized improved outcomes as well as significant cost saving for its clients.

The company's name reflects its connecting role among the Safety Net providers, a collaboration of health-based programs serving the uninsured and underinsured in the region. SafetyNet Connect is a company created from the partnership between Internet and software solutions provider NetChemistry, Inc. and ELM Technologies – both which have a rich history of providing technology and services that enables collaboration between hospitals, insurance companies, managed care organizations, third-party administrators, physician groups and public sector health plans. For more information please visit www.safetynetconnect.com.

ABOUT NETCHEMISTRY

NetChemistry is an Internet solution and software provider to the Health Services industry whose systems have handled billions of dollars in transactions. Combining vertical expertise with their Core Product Suite, NetChemistry specializes in Web-based information enrollment, distribution and tracking systems comprised of secure, scalable software modules that can be rapidly customized to fit the different parameters of each client's needs.

In addition to software development, NetChemistry has provides design architecture, systems integration and managed hosting.
