BROOKSTEET SECURITIES CORPORATION DEPLOYS NETCHEMISTRY'S (ASP) PRIVATE/PUBLIC EQUITY OFFERING PLATFORM

NEWPORT BEACH, Calif., January 18, 2003 - NetChemistry, a top-tier provider of mission-critical, highly secure Private and Public Offering platforms to the Financial Services Sector, today announced that Brookstreet Securities Corporation has successfully launched NetChemistry's Web based Equity Offering Platform for the online distribution, tracking and management of the firm's IPO's and Private Offerings. Brookstreet Securities offers a complete list of personalized financial services, as well as a comprehensive line of investment opportunities for individuals and businesses.

"With NetChemistry's Web based Equity Offering Platform, we are better able to serve the dynamic needs of our firm's investors," said Stan Brooks, CEO of Brookstreet Securities. "It will definitely allow us to distribute offerings easier, faster and with less liability."

"Our goal has always been to help companies reduce the cost of raising capital and better access their investors during the offering process," said Chris Cruttenden, president of NetChemistry. "We've also reduced the liability associated with investor communication by strictly controlling who the investor is, what information they are allowed to access and when they are allowed to access it. In addition, we know when the investor has received alerts and all their activity relating to a particular deal."

About the (ASP) Private Equity Offering Platform

The Online Equity Offering Platform is used by broker/dealers to identify, track, and allocate shares associated with investors during a private or public offering.

NetChemistry's Offering Platform the industry's leading offering management platform, a flexible rapid-deployment solution designed for broker/dealers, banks, investment banks and insurance companies to buy and distribute equity. The Offering Platform also allows investors to quickly and efficiently see a list of upcoming offerings, pass a suitability questionnaire, apply for an account, read and download information, ask questions and submit conditional offers.
