NETCHEMISTRY AND eEYE DIGITAL SECURITY ANNOUNCE DISTRIBUTION PARTNERSHIP

NEWPORT BEACH, Calif., December 13, 2001 - NetChemistry, a top-tier provider of secure Private/Public Offering platforms and eEye Digital Security, a leading provider of network security software products, today announced a partnership to distribute and implement eEye's superior security software products to the Financial Services Sector. These products include Retina™ Network Vulnerability Scanner, SecureIIS™ Application Firewall and Iris™ Network Traffic Analyzer. The partnership plays a key role in both companies commitment to provide best of breed workflow and security products to the mission-critical needs of the financial services sector.

"New threats to corporate security through internet based systems arise every day. eEye has consistently been at the forefront in identifying these new vulnerabilities," said Alfred Lutter, CEO of NetChemistry. "Their discovery and notification to Microsoft of the Code Red virus is only the most recent case-in-point."

"We are very excited about the opportunity to partner with NetChemistry. Our products are positioned as a proactive, easy to use tool that dramatically enhances an IT administrator's ability to manage the security of their networks. These aspects make them a perfect fit for NetChemistry's financial services clients," stated Firas Raouf, Chief Operating Officer of eEye Digital Security.

About eEye Digital Security

eEye Digital Security is a leading developer of high-end network security products and an active contributor to network security research and education. eEye offers a variety of network security products targeted at IT administrators and consultants alike. eEye products are focused on "proactive" security. These products work in conjunction with popular tools such as Firewalls and Intrusion Detection Systems to deliver comprehensive assurance. eEye provides global coverage to its clients through partners and its offices in the US, Switzerland, UK and Spain. eEye products protect the networks and digital assets of over 1,000 corporate and government entities in over 40 countries. The eEye products include Retina™, the Network Vulnerability Scanner, SecureIIS™, the IIS Application Firewall, and Iris™, the Network Traffic Analyzer.
